

Thursday, November 8, 2021

Dear Sir or Madam:

Magnolia Public Schools invites you to join us in our Fifth Annual Science, Technology, Engineering, Arts and Mathematics (STEAM) EXPO scheduled to be held on Saturday, May 7, 2022 at the Long Beach Convention & Entertainment Center.

STEAM EXPO 2022 is an excellent opportunity for all Southern California residents to enjoy a day full of STEAM projects, demonstrations, family challenges, visual and performing arts performances, and robotics competitions. The EXPO offers a venue for the students to exhibit the outcomes of their STEAM studies and hard work, the professionals to show how STEAM is used to better our communities, and the participants to appreciate STEAM Education and its supporters.

Previous years' events brought together over a thousand of visitors enjoying more than hundreds of interactive STEAM demonstrations in a carnival setting. Video highlights from 2018 event can be seen at <http://www.magnoliapublicschools.org/apps/video/watch.jsp?v=10034166> STEAM EXPO also rewards great STEAM educators for their contributions to our communities.

Your partnership will contribute to the development of the future STEAM workforce by inspiring students to pursue independent research and helping them develop critical 21st Century skill sets.

Attached also you will find detailed information on the event. We also encourage you to visit our website magnoliapublicschools.org/steamexpo to learn more about the ways you and your organization can support the STEAM EXPO.

We will be honored if you or someone from your department can join us to represent your organization.

We look forward to working with you to make the STEAM EXPO 2022 yet another success!

Best,

Erdinc Acar

STEAM EXPO Coordinator
